(Special to The Timos-Dispatch.)
NORFOLK, VA., Feb. 5.—The North
Carolina Pine Association met here today and provided for a contest against compulsory pilotage. It is take first or-ganization operating in the territory that is controlled by the Virginia Pilots' Association to enter protests against the compulsory pilotage. It is the first orbeen abolished by the States North of Maryland and to openly take a stand with the vessel owners in their efforts to secure Congressional action, thus wipout State concessions made to the pilots in the South.

ing out State concessions made to the pilots in the South.

At to-day's meeting, the association appointed John L. Roper, R. S. Cohn and J. R. Walker, a committee to draft a strong resolution to be forwarded to the Washington representatives of the Atlantic Carriers' Association. As the body's influence extends also to Wilmington, Newbern, Charleston and other Southern ports, its endorsement of the bill promises to be the most important co-operation the vessel owners will have in the Washington campaign.

ADVANCE NOT SANCTIONED.

The general advance in price of 56 cents a thousand feet, predicted some days ago, was not authorized by the association, the only changes being made in the prevailing schedule applying to a very few classes and being silght in each case. Detective Rose returned home to-day bringing Phillip McIutyre, the alleged forger, who got \$200 from the Citizens' Bank here on a worthless check, with him from New York. McIntyre was arrested in New York as he got of the steamer from New Orleans on the charge of embezzling \$500 in Mexico. He had \$2,500 and \$1,000 worth of jewelry, which was attached in New York. He was placed in a cell here and will be examined to norrow. He refuses to talk of the various charges against him in other places.

SELF-DEFENSE.

Sarah Jackson, negress, was acquitted in the Corporation Court to-day on the charge of murder. On December 28th, while engaged in a quarrel, she stabbed Martha Jackson, another negress, to death. She proved that she acted in self-defense against the larger woman and the aggressor. W. H. Land, colored, was her attorney.

Arthur Jones, of Portsmouth, a white youth, who has recently returned home from the State Reformatory, is arrested and held for trial on the charge of stealing an overcoat. He saatched the overcoat from a boy who was carrying it to the shop. He is not reformed.

The Public Ledger, newspaper, changed cwnership to-day, with Harvey Wilson as aditor. The directors are W. J. Payne, of Richmond: N. Beaman, president of the Bank of Commerce, and Joseph G. Fivesash.

RADFORD. VA., Feb. 9.—Jumes Linkous, the wife murderer, to pay the penalty of his crime on the gallows the 17th, was brought from Pulask; juil last night by Sergeant McNeal and coarned in the jail at East Radford. Linkous desires baptism, and wished to be near his spiritual advisor, Mr. Fox. He still protests his innocence and has been praying for several witnesses, whom he claims testified falsely against him, and for the physicians, whose testimony against him was very damaging.

Most people think he had better be praying for himself.

It is hardly probable the case will be

It is hardly probable the case will be taken to the Court of Appenis, owing to the lack of interest on the part of those at first solicitous in the matter.

A healthy appetite and-common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables, meat furnishes the most nutriment in a highly concentrated form and is digested and assimilated more quickly than vegetables and grains.

getables and grains. Or. Julius Remmson on this subject Dr. Julius Reminson on this subject says: Nervous persons, people run down in health and of low vitaility should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's. Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets, because they supply the pepsin and distase necessary to perfect digestion, and every form of indigestion will be everome by their use.

That large class of people who come under the head of nervous dyspeptics should eat plonty of meet and insure its proper digestion by the daily use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets, composed of the natural digestive principles, pepsin, diastase, fruit acids, and saits, which actually perform the work of digestion. Cheap cathertic medicines, masquerading under the name of dyspepsia cures are useless for indigestion, as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms is simply a failure of the stomach to digest food, and the sensible way to solve the riddle and cure the dyspepsia is to make daily use at meal time of a preparation like Stuart's Dyspepsia Tablets, which is endorsed by the medical profession and known to contain active digestion principles.

"I herewith write out in full the beginning and end of that terrible disease, eczems, which caused my babe untold suffering and myself many sleepless

nights. "My babe was born seemingly a fair, healthy child, but when she was three weeks old a swelling appeared on the back of her head, and in course of time broke. It did not heal but grew worse, and the sore spread from the size of a dime to that of a dollar. I used all kinds of remedies that I could think of, but nothing seemed to help; in fact, it grew worse. Her hair fell out where the sore was, and I feared it would never grow again. It continued until my aged father came on a visit, and when he saw the baby he told me to get Cuttoura Soap and Olutment right away.

"To please him I did so, and to my surprise by their use the sore began to heal over, the hair grew over it, and to-day she has a nice head of hair, her skin is as fair as a lily, and she has no scar left to recall that awful sore, and it is over eight months and no sign of its returning." dime to that of a dollar. Government Ownership.

Declaring that he spoke as a conservative, as he was not a radical, Mr. Willams sand the time might come when all the country, except the South, would be advocating government ownership of the railroads. The South never support that proposition, because they had the old fashioned idea, that the government should not become too strongly centralized. They were further oposed to government ownership because they knew the government would not operate separate coaches for the whites and blacks.

Mr. Hepburn said it had been the Domocratic boast that they held to the principle of exact justice to all the people, but, he continued, Mr. Willams, hearing a clamer, trying to ride a wave that he thought led to popular promotion, was willing to deny equality to the man that invests his property in some other way than that that meets the preference of the gentleman from Mississippi."

After commending the court of transportation feature of the bill, Mr. Hepburn, in concluding, urged the railroads to a strict obedience of the law. They must learn, he said, that there was a power greater than they; that the interests of the multitude were greater than any interests that could be subserved by money and wrong and disobedience.

"They must learn, too," he said, "that the people are alert now lest the menace of the concentration of immense wealth does not become a terror in the future it not restrained."

He was loudly applauded as he took his seat.
